

Must-Have Products for Handy Homeowners

Home is where the heart is, but many homeowners have been left brokenhearted by outdated or neglected homes.

A DIY home project can be intimidating for many – and may even result in the need of more costs and repairs when good DIYs go bad.

Mötsenböcker's Lift Off® are the go-to [products for the handy homeowner](#). Lift Off® products are scientifically developed to break the molecular bond at the surface level. All formulas are biodegradable, low-VOC, and developed without harsh chemicals.

Lift Off® Latex Paint Remover removes spilled paint from flooring without damage.

About:

Mötsenböcker's Lift Off® breaks the molecular bond between the surface and stains, adhesives, paints, varnishes, and caulks. Lift Off® products are biodegradable, sustainable, low-VOCs, and free of harsh chemicals making them safe for the environment and the user. Mötsenböcker's Lift Off® was developed by Gregg "The Wizard" Molsenbocker in 1980. Greg Molsenbocker holds over 50 US and foreign patents and is the recipient of the Patent & Trade Office's Invention of the Year Award in Chemistry. Mötsenböcker's Lift Off® products are sold nationally at Home Depot, Ace Hardware, and True Value. For more information visit <http://www.liftoffinc.com>. Mötsenböcker's Lift Off® is a division of Stoner, Inc.
