

Clean & Repel Washer Fluid Additive

Single Use Ultra Concentrate

Uses

Clean & Repel™ Washer Fluid Additive adds rain repellent directly to your washer fluid. Pour one bottle into a gallon jug or full reservoir of washer fluid. During the summer, it can be added to clean water.

Directions for Use

1. Remove cap and safety seal.
2. Pour directly into your washer fluid reservoir.
3. Allow washer fluid time to mix completely during daily driving.

Helpful Hints: To achieve the best value and ideal mix ratio, add one full bottle directly to a new gallon of washer fluid before filling your reservoir.

Storage and Handling

Store this product in a cool location out of direct sun.

Washer Fluid Additive Description

IMPROVES VISIBILITY IN WET WEATHER

Single Use Washer Fluid Additive enhances driving visibility and safety in wet weather by helping shed water from your windshield.

TURNS WASHER FLUID INTO A POWERFUL RAIN REPELLENT

Single Use Washer Fluid Additive will cause water to bead up and run off your windshield with only a spray of your windshield.

ULTRA CONCENTRATED FOR CONVENIENT SINGLE-USE

Single Use Washer Fluid Additive is ultra-concentrated and pre-measured to treat one full reservoir. There is no need to calculate the mix ratio. Just pour and go!
